

Memorandum

Date: April 24, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

Agenda Item No. 8(J)(1)(B)

From: George W. Burgess
County Manager

Subject: Grant Amendment Application for Extension of a Park and Ride Lot at the Dadeland South Metrorail Station for \$600,000

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) authorize the execution and filing of a grant amendment application on behalf of Miami-Dade County with the United States Department of Transportation (USDOT) totaling \$600,000 in Fiscal Year (FY) 2006 Congestion Mitigation Air Quality (CMAQ) Improvement Program Funds. These funds will be used to cover costs related to the extension of a park and ride lot at the Dadeland South Metrorail Station which will provide additional parking spaces. It is further recommended that the Board authorize the execution of this grant agreement pursuant to the application, and the receipt and expenditure of funds as specified in the agreement.

There will be no fiscal impact to the County. A public hearing is required in accordance with the Federal Transit Administration (FTA) regulations.

SCOPE

While this park and ride lot is physically located in Miami-Dade County Commission District 7, at the intersection of US 1 and North Kendall Drive, the impact of this project benefits the riding public and, is therefore, countywide.

FISCAL IMPACT/FUNDING SOURCE

There will be no fiscal impact to the County since the required local match in the amount of \$150,000 will be provided by the Florida Department of Transportation (FDOT) through the use of State Toll Revenue Credits (TRC), a "soft match". Soft matches are not actual dollars, but an accepted accounting device that allows the State to provide a local match for Federal funds upon request. This enables MDT to apply for federal appropriations without committing additional local funds.

TRACK RECORD/MONITOR

Miami-Dade Transit (MDT) has entered into numerous funding agreements with USDOT over the course of more than twenty-five (25) years. The contract monitor for these grant applications is Doug Greist, Manager, MDTA Budget and Management Services.

BACKGROUND

The Congestion Mitigation Air Quality (CMAQ) Improvement Program was established by the Intermodal Surface Transportation Act of 1991 (1991 ISTEA, Public Law 102-240) and was continued under the Transportation Equity Act for the 21st Century (TEA-21, Public Law 105-178) under 23 United States Code (U.S.C.) 149. The program remains in place under the latest reauthorization, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU).

Under 23 U.S.C. 104(b)(2)(B), each state was apportioned funding based on county populations residing within ozone and carbon monoxide (CO) nonattainment and maintenance areas and the severity of an area's air quality problems.

Flexible federal highway formula funds have been programmed by the FDOT through the use of CMAQ funds to provide financial support to extend a surface park and ride lot located at the Dadeland South Metrorail Station. A total of approximately 110 additional parking spaces will be added as a result of this project. It will be located on an undeveloped lot adjacent to the existing parking lot, just southwest of the intersection of US 1 and North Kendall Drive. The available funding of \$600,000 is anticipated to cover the estimated cost of the entire project, which is scheduled to be completed between mid 2010 and early 2011. Given the increasing demand on MDT's parking garages and other park and ride facilities, this project will help relieve some of the congestion problems and better accommodate the County's public transportation users.
